PROFESSIONAL SUMMARY

Azure Data Engineer with 4 years of experience developing and modernizing enterprise data pipelines using Azure Data Factory, Azure Databricks, PySpark and SQL. Experienced in migrating Talend and SSIS workloads, implementing Delta Lake Medallion Architecture, building streaming and incremental pipelines, and automating Databricks deployments through GitHub Actions and Asset Bundles. Databricks Data Engineer Professional certified, with experience supporting clinical and reporting data platforms.

SKILLS & CORE COMPETENCIES

Languages:	Python, PySpark, SQL
Azure:	Azure Data Factory, Azure Databricks, ADLS Gen2, Azure Functions, Logic Apps, Azure Key Vault, Managed Identity
Data Eng:	Apache Spark, Delta Lake, Auto Loader, Structured Streaming, ETL/ELT, CDC, Data Warehousing, Data modelling, Dimensional modelling, Star schema, Orchestration, Monitoring and alerting
Databases:	Microsoft SQL Server, Oracle
DevOps:	GitHub Actions, Azure DevOps, Databricks Asset Bundles, Git, YAML, Terraform, Agile, Scrum
Governance:	Unity Catalog, RBAC, Row-Level Security, Column-Level Security
Reporting:	Power BI, Power BI Report Server, Power Apps, Alteryx, Spotfire

PROFESSIONAL EXPERIENCE

Senior Associate Consultant (Data Engineer) <i>Infosys Ltd Client: Pfizer Inc</i>	Sep 2025 - Present
- Migrated 21+ Talend ETL pipelines to PySpark on Azure Databricks, utilizing Spark optimization techniques (e.g., partitioning, OPTIMIZE and Z-ORDER) to enhance scalability and processing reliability for clinical data platforms. - Architected end-to-end CI/CD pipelines using GitHub Actions and Databricks Asset Bundles (DAB) to automate notebook deployments with approval-based release controls in an Agile environment. - Designed Medallion Architecture (Bronze, Silver, Gold) on Delta Lake with robust data quality validation, integrating Auto Loader and Structured Streaming for ACID compliance. - Developed and maintained real-time Delta streaming pipelines incorporating checkpointing, schema evolution, and incremental processing via MERGE/CDC patterns. - Served as a technical concierge for 150+ downstream data consumers during the platform transition from Amazon Redshift to Databricks Unity Catalog, ensuring seamless integration and connectivity for Alteryx, Spotfire, and various JDBC applications. - Enforced enterprise-grade data governance leveraging Databricks Unity Catalog, establishing secure access controls via Azure Key Vault and Managed Identity, environment isolation, and strict compliance.	

Software Engineer (Data Engineer)

H&R Block India | Client Service Organization Reports

Jun 2022 - Sep 2025

- Led the design and orchestration of highly scalable ETL pipelines with Azure Data Factory to efficiently ingest data from REST APIs, flat files, SQL databases, and Azure storage.
- Spearheaded migration of legacy SSIS workloads to Azure Data Factory, Logic Apps, and Azure Functions, cutting operational costs by 30% and boosting pipeline efficiency by 25%.
- Executed cloud migration of on-premise SQL databases and Power BI Report Server to Azure via Terraform, deploying 65+ reports and increasing data accessibility by 40%.
- Maintained robust analytics delivery with active monitoring and alerting across 144 production data loaders, ensuring a 99.9% uptime SLA through rigorous CI/CD and release management.
- Optimized complex SQL queries, query execution plans, stored procedures, and indexing strategies, resulting in 20% faster data processing and a 60% reduction in overall compute costs.

CERTIFICATIONS

Databricks Certified Data Engineer Professional	May 2026
Databricks Certified Generative AI Associate	Mar 2026
Databricks Certified Data Engineer Associate	Jan 2026
Microsoft Certified: Azure Fundamentals (AZ-900)	Jan 2024

EDUCATION

Bachelor of Engineering, Computer Science and Engineering	2022
<i>St. Xavier's Catholic College of Engineering Nagercoil, Tamil Nadu</i>	

SPOKEN LANGUAGES

- Bilingual in Tamil and English, with Tamil as mother tongue.
- Proficient in Malayalam.
